

Environmental Policy

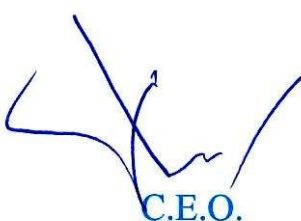

The management and staff of EMPCO are committed to the protection of human health, natural resources, the environment and continual improvement of Environmental Management System, for that purpose we are dedicated to establish and implement appropriate system for our operation.

The EMPCO environment policy shall be considered fully in the setting and review of our operation in the aim of achieving full compliance in adherence to the law and regulation being imposed by the Dubai Government and to the internal and external issues facing the organization.

Utilizing the best available technology, where economically viable to demonstrate our ability in acquiring better results in the monitoring of our environmental performance.

EMPCO's environmental policy guides us in striving to a more comprehensive research in eliminating harmful pathogen population on the farm, pollution control, reduction of waste product and recycling whenever possible and the continuous study and research for the conservation of natural energy resources.
